Topicals with Natural Marine Extract™

Miracle of the Sea Almond Oil, Serum, Lotion and Aloe Vera Gel products with 2% Natural Marine Extract have ingredients reported to heal fragile, thin, easily bruised and torn skin, sun damage, acne scars, stretch marks, non-inflammatory rosacea and more.

Miracle of the Sea products are all-natural and revolutionary skin products. They have been dermatologist developed and clinically tested in a study of 283 subjects over a four-month period with excellent results.

The Ingredients of Natural Marine Extract Have Been Shown to Increase Hyaluronic Acid and:

- Create younger, thicker skin
- Increase collagen production
- Increase elastin production
- Generate healthier skin

Choosing Almond Oil, Gel, Serum or Lotion for Miracle of the Sea Topical Application

The Miracle of the Sea Almond Oil, Aloe Vera Gel, Serum, and Lotion are all effective delivery vehicles for Natural Marine Extract. Oils are recommend for dry skin. Serum is recommended for oily skin. Our all natural/organic Aloe Vera Gel very rapidly penetrates and is the best of our topicals for superficial burns and wounds. Older or heavily sun-damaged skin usually needs lotion applied over our aloe vera gel. You can check our products' supporting ingredients on [our website's Additional Information tab](#).

Choosing Your Essential Oil for Your Miracle of the Sea Topical Product

Essential oils have the following qualities:

Lemon essential oil helps lighten lentigines (brown spots also known as age or sun spots).

Lavender essential oil is an excellent anti-oxidant – quelching pre-radicals (especially for sun lovers).

Peppermint essential oil dilates capillaries to accentuate the permeability of the blood vessels to allow more stem cell percolation into the desired area (thus increasing rejuvenation)

Topicals with Natural Marine Extract™

Rejuvenate Sun Damaged Skin for People Over 50 and Address Other Skin Conditions

Fragile, easily bruised and torn skin
Skin aging
Thin, crepe skin
Health Care (N95) mask and goggle damage
Non-inflammatory rosacea
Pressure Sores
Diabetic ulcers
Help counter radiation “burn” before, during or after radiation treatment
Minor wounds and First degree Burns
Lip Sores
Stretch marks
Acne scars
Slow the aging of the skin process

Get Rid of Acne Scars and Other Conditions Teens and Young Adults Endure

Stretch marks • Health Care (N95) mask and goggle damage • Non-inflammatory rosacea •
Minor Wound care • Lip Sores

For Professional Use in Surgical Procedures

Backbar supplies are provided for in-office procedures such as resurfacing (Fraxal laser, needling, acid peel and microdermabrasion). Miracle of the Sea Aloe Vera Gel with 10% NME is used during or immediately after the surgery. The 2% concentration is recommended for use over our Miracle Dressing during post-op visits. All our backbar packages are 100ml in size ([click here for product details](#)).

Miracle of the Sea Consumer Product Packaging

Miracle of the Sea with Natural Marine Extract in 15ml, 30ml and 60ml almond oil and serum packages are delivered to you with caps but you are also sent an eyedropper dispenser. It is recommended that you use the cap for travel.

Miracle of the Sea aloe vera gel is available in 48ml, and lotion products are available in 15ml and 45ml airless pump packages. Each dispenser delivers 2ml per pump.

Miracle of the Sea Capsules with Natural Marine Extract™

Immune System Need a Boost?

Miracle of the Sea Natural Marine Extract 400 mg Capsules contain only natural ingredients that have been consumed for millennia to boost the immune system, repair DNA and promote cellular rejuvenation.

Dr. Lewis reports users of Miracle of the Sea Capsules do not just “feel better” but notice specific benefits such as improved memory, movement, balance, breathing, fewer and milder colds and flu episodes and generalized wellness since using the capsules.

Most impressive is the observation of patients and Dr. Lewis in clearing sun damage and improving the quality of skin in areas different from those where the topical Miracle of the Sea is being used.

Some new users may prefer to use a topical form of Miracle of the Sea with Natural Marine Extract before beginning capsule use to prove for themselves its benefits and then extrapolate those topical benefits systemically into the entire body.

Repair Sun Damage and Other Conditions for People Over 50

Repairing damaged DNA • Cellular Rejuvenation • Boosting the Immune System • Fragile, easily bruised and torn skin • Sun damaged skin • Severe skin aging • Thin, crepe skin • Gum health and receding gums • Lip Sores • Non-inflammatory rosacea • Pressure Sores • Diabetic ulcers • Help counter radiation “burn” before, during or after radiation treatment • Wound Care • Stretch marks • Acne scars • Slow the aging process

Boost Immune System and More for Teens and Young Adults

Slowing the aging process before it starts • Boosting the immune system • Stretch marks • Acne scars • Lip Sores • Non-inflammatory rosacea • Wound care

In general, we have found that some conditions like stretch marks and acne scars in patients over 50 years old may require longer treatment periods than for Teens and Young Adults.

Gum Health Paste with Natural Marine Extract™

Miracle of the Sea Gum Health Paste with 2%, 4% and 10% Natural Marine Extract (NME™) contains ingredients that have shown rejuvenation effects to regrow receding gums without painful, expensive flaps or grafts. Can also be used to generally improve gum health.

Receding gums create a fertile area for bacterial growth which not only causes tremendous inflammation and increased separation but also weakens the bony socket causing tooth loss. The ingredients of Miracle of the Sea Gum Health Paste with Natural Marine

Extract (NME™) stops the progression and starts the rejuvenation of receding gums and protects the gums from bacterial overgrowth.

Miracle of the Sea Gum Health Paste not only encourages the regrowth of receding gums, it promotes overall gum health. Have your dentist measure your gum health before you start using Miracle of the Sea Gum Health Paste and check the results three months later. Both you and your dentist should be pleased with the improvement.

Miracle of the Sea Gum Health Paste has been shown to regrow gums on teeth that have root exposure or receded gums showing the front of a root (i.e. gum recession on the front of the root, not all around).

Recession of the interdental papillae cannot be reversed. Where there is interdental papillae recession, the alveolar bone surrounding these areas is flattened. Papillae growth would depend on the amount of bone underlying the gums. If the bone is flat, the papillae will be flat. This is especially true around implants.

Lip Health Balm with Natural Marine Extract™

Miracle of the Sea Lip Health Balm with 2%, 4% and 10% Natural Marine Extract™ (NME™) have ingredients reported to help clear and prevent lip sores, help heal sun damage, dry cracking lips and other lip issues.

Lips are the most vulnerable areas of exposed skin on the body. They are the only areas which have no functional sebaceous glands. Sebaceous glands produce sebum which is a complex mixture of lipids. The combination of triglycerides, fatty acids, cholesterol and wax esters produce an amazing cutaneous lubrication system.

Squalene, the sunscreen of sebum, protects the skin against UVA and UVB. Sebum is the ultimate anti-aging substance minimizing two of the major causes of skin deterioration: inflammation from micro fissures and protecting against the ionizing effects of ultraviolet light.

Thus, lips are commonly the fastest aging and most vulnerable areas of skin for skin cancer. Miracle of the Sea Lip Balm with Natural Marine Extract is the perfect solution for this extremely vulnerable skin.

The Ingredients of Natural Marine Extract have been shown to:

- Create younger, thicker skin
- Increase collagen and elastin production
- Increase hyaluronic acid
- Generate healthier skin
- Help heal micro fissures, thus minimizing lip sore outbreaks
- Help the rapid healing of lip sore outbreaks
- Help heal acute and chronic sun damage
- Help heal pre-cancers called actinic keratosis

Miracle of the Sea Lip Health Balm is Ideal for:

Lip Health Maintenance • Lip Sun Damage • Lip Sores • Dry Cracking Lips • Minor Wounds
Also helps counter radiation "burn" before, during, or after radiation treatment.

Miracle Dressing and Agglutinant with Natural Marine Extract™

There are dozens of revolutionary patent-pending aspects of Miracle Dressing including pore design and distribution which allows removal of blood and exudate without ever changing the dressing by simply immersing it in water (such as shower, bath or faucet). These specialized pores also allow the administration of topical medicinals (such as Polysporin, Neosporin, etc). The Miracle Dressing is designed to fall off on its own after three weeks.

Miracle Dressing has been evolving since 2014. You can see details in the “Study Using 21-Day Wound Care System.”

Benefits

Miracle Dressing System Wound Care System (MDS™) helps prevent pressure wounds from developing while avoiding peripheral tissue damage. MDS reinforces and protects skin from micro-tears, provides true barrier protection, and improves the tensile strength of skin.

Daily Dressing changes remove much of the healing tissue thus markedly slowing the healing process and causing irritation, inflammation and peripheral skin breakdown - **MDS eliminates daily dressing changes.**

Leaving the Miracle Dressing on for three weeks speeds the healing process in pressure wounds, burns, abrasions, avulsions, tears and bruises. **MDS stabilizes bruised skin** to minimize continued bruising, speeds healing, and improves the quality of the healing process, thus **minimizing scarring.**

MDS is excellent for **surgical closures** and protects the wound while keeping it open to air.

The MDS improves wound and surrounding skin quality to minimize probability of further breakdown while **improving micro-vascular blood supply and collagen repair.**

Instead of “keeping the wound dry and changing the bandage every day,” which are the directions of most wound preparations, **Miracle Dressing benefits from water contact.** Water immersion (e.g. sponge rinsing, shower) cleans the wound and delivers marine extracts to the wound without changing the dressing. Miracle Dressing is designed to fall off after a minimum of three weeks when the wound is healed.

Miracle Dressing and Agglutinant with Natural Marine Extract™

Professional Miracle Dressing Wound Care Kit

For Skin Tears, Replacement of External Stitches, 1st, 2nd and Superficial 3rd Degree Burns, Abrasions, Avulsions, Bruises

This Kit contains the following:

- Ten (10) strips: 1" wide x 2" long
- Ten (10) strips: 1" wide x 4" long
- Five (5) strips: 2" wide x 2" long
- Five (5) strips: 2" wide x 4" long
- Two (2) strips: 4" wide x 6" long
- Two 5ml Bottles of Agglutinant with Natural Marine Extract (AME™)

Expanded Professional Miracle Dressing Wound Care Kit

For Skin Tears, Replacement of External Stitches, 1st, 2nd and Superficial 3rd Degree Burns, Abrasions, Avulsions, Bruises

This Kit contains the following:

- Twenty (20) strips: 1" wide x 2" long
- Twenty (20) strips: 1" wide x 4" long
- Ten (10) strips: 2" wide x 2" long
- Ten (10) strips: 2" wide x 4" long
- Four (4) strips: 4" wide x 6" long
- Four 5ml Bottles of Agglutinant with Natural Marine Extract

Our Patented Natural Marine Extract™

Key to the Efficacy of All Our Products

Natural Marine Extract is composed of all-natural marine species including *Holothuria cinerascens* (ashy sea cucumber), *Spirulina pacifica* (Hawaiian spirulina), *Chalmys rubida* (Pacific pink scallop), *Strongylocentrotus franciscanus* (giant red urchin), *Holothuria mexicana* (donkey dung sea cucumber), *Haliotis fulgens* (green abalone), *Arthrospira platensis* (spirulina), *Stichopus chloronotus* (greenfish sea cucumber), *Strongylocentrotus purpuratus* (purple urchin), *Haliotis rufescens* (red abalone), *Holothuria scabra* (sandfish, a sea cucumber), *Ascophyllum nodosum* (knotted wrack kelp), *Macrocystis integrifolia* (giant kelp), and *Microcystis aeruginosa* (blue green algae).

Analysis of Natural Marine Extract using UPLC-MS and LC-MS-MS showed that Natural Marine Extract expresses in the following compounds: arachidonic acid, eicosapentaenoic acid and docosahexaenoic acid, ubiquitin, triterpenoid glycoside saponin, philinospide E and lipopolysaccharide, fucosylated chondroitin sulfate, hemocyanin, calmodulin, nucleoplasmin, ferritin, cathepsin D, glycosaminoglycan, bioactive peptides, and 13-Methyltetradecanoic acid.

The Natural Marine Extract Ingredients' Mechanism of Action

These marine species and compounds have been studied and shown (please see our references for [species benefits](#) and [compounds](#)) to repair damaged DNA and stimulate DNA expression (which are critical functions of cellular rejuvenation). Thus, they have positive benefits for the thin and atrophic deteriorating skin. This atrophic skin has few fibrocytes and capillaries and while exhibiting a severe loss of collagen, elastin and hyaluronic acid. The skin changes caused by the ingredients in Natural Marine Extract create young, productive fibrocytes and capillaries which allow a marked increase in production of collagen (for skin strength), elastin (for skin elasticity) and hyaluronic acid (for skin thickness).
